SME Initiative 2012 Working Group

IPA's SME Initiative, in collaboration with Private Enterprise Development in Low-Income Countries (PEDL), held its second Working Group in Cambridge, MA – a full-day event that brought together 41 researchers, practitioners and donors to discuss early-stage research and potential new projects pertaining to SME policy and entrepreneurship. The Working Group provided an opportunity for affiliates of the SME Initiative and PEDL to share their work, discuss potential areas for collaboration, and network with others active in the SME space.

A diverse array of presentations covered topics including, among others, the agenda and opportunities for collaboration with the new SME Finance Forum, the impact of exporting on quality and production of goods in Egyptian SME clusters, innovative platforms for third party contract enforcement, mobile solutions for improving SME management, credit constraints faced by coffee farmers, mobile salary payments in Afghan firms, and demand building and export dynamics in Chinese footwear firms.

Presenters included:

Welcome

Antoinette Schoar, MIT Sloan School of Management
