This workshop was organized by the [Decent Jobs for Youth initiative](https://www.decentjobsforyouth.org/) in partnership with IPA, l'Agence Française de Développement (AFD), the Grand-Duché de Luxembourg, and the International Labour Organization (ILO). The aim of this workshop was to increase the quality of robust evidence on what works concerning youth employment projects in the Sahel region. The science behind impact evaluations is key in creating more robust evidence. The objective of this workshop was to create space for preselected organizations to refine their impact evaluation proposals with advice from sector experts.
